

PLACEHOLDER

Fig. 4 - Crack-aware stereo DIC

Same frame, shared colour scale: (a) ROI with the thin barrier cut along the crack; (b) naive strain field smeared across the crack; (c) crack-aware field with cross-barrier neighbours excluded and the crack band blanked.

Inset: eyy line profile across the crack for (b) and (c).

Data / script: Cracked-specimen stereo pair + two runs (barrier off / on).
